

GOVERNOR ARNOLD SCHWARZENEGGER

December 3, 2006

*Albert Boime*

On behalf of all Californians, I am delighted to extend to you my greetings and congratulations on this very special occasion.

As one of the world's great art historians, your work has enlightened the minds of generations of students, scholars and art lovers. Your tenure as an alumnus and professor at UCLA brings honor to your alma mater and your state. Through books, articles and classes, you expose countless individuals to ancient and modern artists who were unfettered by social conventions.

I applaud you for your contributions to the Arts here in California and around the world. I'm certain the documentary premiering this evening will be justly flattering and serve to spread your important influence to a wider audience.

Thank you for your devotion to opening up the minds of others to see our world in a different and fascinating light. I wish you all the best in your latest endeavors. California is proud to call you one of its own.

Please accept my best wishes for a memorable evening and every continued success.

Sincerely,
